Introduction

HEEDS® MDO introduces support for Rescale, a cloud solution provider, in release 2019.1. This document provides details for how to set up HEEDS to use Rescale for computations.

The instructions in this document only apply to using Rescale from HEEDS. These changes are not necessary unless you are using Rescale.

Before running jobs in Rescale, it is important to understand that when using Rescale Cloud Computing, running an analysis is not free; you will be charged for your jobs in your Rescale account. For details please refer to cost information provided by Rescale on their web page (<https://www.rescale.com/>).

Requirements

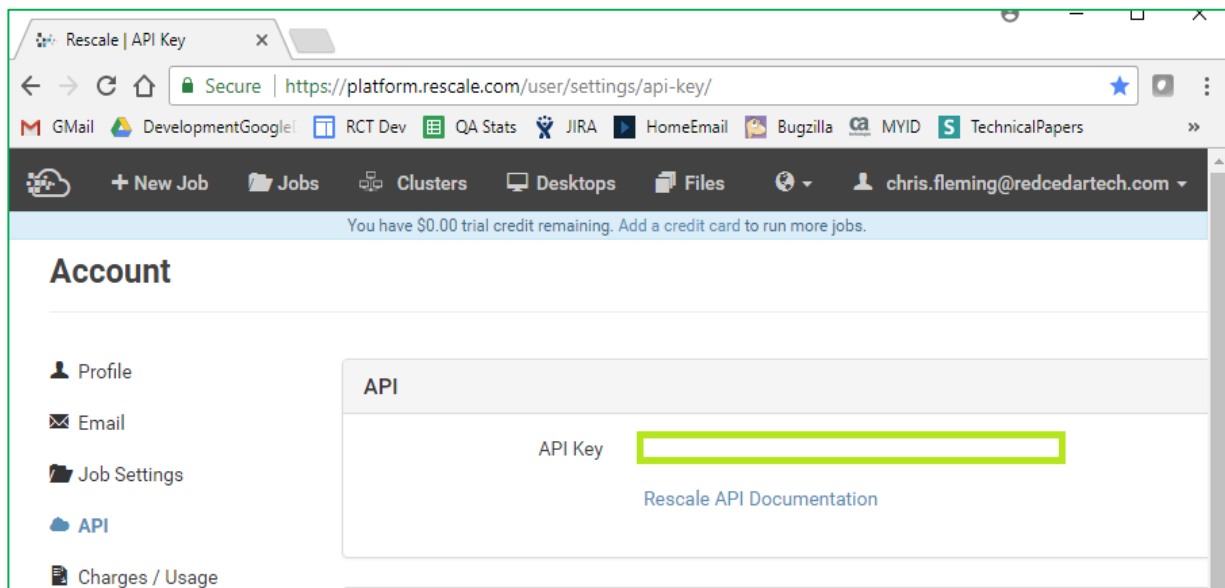

To use Rescale from HEEDS® MDO you will need:

Rescale Account: You must set up the account prior to using HEEDS with Rescale. Refer the Rescale home page (<https://www.rescale.com/>) for instructions on how to set up the account. This account will be charged for the CPU time used by analysis software running in Rescale.

API Key: To get the API Key:

1. Log into your Rescale account.
2. Select **Account** from the drop-down menu for your account in the upper right corner of the page.
3. Select **API** from the list of options on the left side of the page.

The API Key is the long incomprehensible string listed on the top of the page.

Rescale API Key

Licenses: The analysis software you run needs an appropriate license.

Technical Support

Siemens PLM offers technical support for HEEDS from 9:00 a.m. to 5:00 p.m. Eastern Time, Monday through Friday. To obtain technical support:

- Phone: 1.517.664.1137
- Email: support@redcedartech.com
